Mr. Fisher. India street, Boston.

It will be seen that the letter acknowledges an offer by Fisher to let Blaine into "tle new railroad enterprise." It was the Little Rock and Fort Smith Railroad Company above referred to. Mr. Blaine accepted the offer thankfully. Mr. Blaine peddled the bonds of this company to Maine citizens. They turned out to be worthless bonds, and had to be taken back under threat of putting their venders in prison. In this His Now World-Wide Reputation as the had to be taken back under threat of putting their venders in prison. In this letter he also asks for a longer and larger interest in the company, which is to come out of Caldwell's shares. To impress Caldwell, the Speaker and "boss" of the House used the famous words, "I do not feel that I shall prove a deadhead in the enterprise if I once embark in it. I see various channels in which I know I can be useful." How he could be useful a subsequent letter explains. The second letter is as follows:

I sent my page to Gen. Logan, and he at once made the point. I could not do otherwise than sustain it, and so the bill was freed from the mischievous amendment moved by Julian, and at once passed without objection. At the time I had never seen Mr. Caldwell, but you can tell him that, without knowing it, I book keeper for Mr. Fisher. Mr. Mulligan had in his possession by Mr. Fisher's consent (see testimony of Mr. Fisher, Misc. The same evening Mr. Blaine called at the Riggs House several times. As to what occurred there the accounts given by Blaine and Mulligan differ essentially. Both gentlemen made statements under oath the next day before the Judiciary Committee. Mr. Blaine admitted that he had received the letters from Mr. Mulligan on a promise to hand them back. Of course, it was my plain duty to make the ruling when the point was once raised. If the Arkausas men had not, however, happened to come to me when at their wits ends and in despair, the bill would undoubtedly have been lost, or at least postponed for a year. The correspondent of the Sun then goes on to string together a tissue of falsehoods, whose audacity is astounding. Mr. O'Connor says: "He (Michael Davitt) charges that Mr. Parnell is using the machinery of the National League and playing upon Irish patriotism to push a private real estate speculation, and intimates that the exorbitant prices he is paying for land gives ground for the supposition that he is secretly receiving bonuses from landlords. Mr. Davitt has made all these charges in writing to Mr. Parnell, but has been met only with curt and tardy replies or contemptuous silence. Now he proposes to publish and circulate as widely as possible the facts upon which his charges are based, for he says it is high time that Irishmen throughout the world should know what a self-seeking schemer they have chosen for their leader."
